Comparative Market Analysis

213 Bear Paw Run, Georgetown, TX 78628

Whether pricing a home to sell or deciding what to offer on one to buy, this is one of the biggest decisions in the real estate process, and it deserves careful thought. This Comparative Market Analysis report is designed to help guide that decision. It follows an approach similar to the one appraisers use when providing information to mortgage lenders however it is NOT an appraisal. It is an estimate of value, and while grounded in real data, there is subjectivity. Please use it as a helpful guide rather than the final word. Questions are always welcome, and any part of this report that raises one is worth talking through.

Comparative Market Analysis prepared by a loan officer using appraisal-style comp selection and adjustments. This is not an appraisal and was not prepared under USPAP by a licensed appraiser.

Sale prices are not public in Texas. Texas is a non-disclosure state, so the closed sale price is not recorded. Unless a card says “Actual sold price,” the “price” is the **last list price** of a home that **closed** (the final asking price, before any seller concession). Actual sale prices may be lower; the 97.7% median sale-to-list ratio for ZIP 78628 is shown separately as a sensitivity and is **not** applied.
Realtors: for any comp, use the box on its card to say whether it closed at its last list price (LLP) or enter a different final sold price. The adjusted values and the indicated value recalculate right here, your entries are remembered on this device, and you can **Print / Save PDF** or **Send prices to James** from the bar at the bottom of the screen. The closing date never changes.

Each comp is adjusted toward the subject: (subject − comp) × rate. Green = adjusted up, red = adjusted down, $0 = no market-supported rate (difference shown, not adjusted). “Not verified” means the feature could not be confirmed, so nothing was assumed. Flags: net over 15% or gross over 25% of the comp's price. Indicated value rounded to $1,000.

Adjustment rates and their basis

Time (market conditions)	−0.34% per month	ZIP 78628 median $/sq ft is −4.1% year over year (OfferBacked, 3 months to 8/31/2026), divided by 12 and applied from each comp's close date to 11/5/2026. ZIP-wide trend; effect is small.
Gross living area	$122/sq ft	Least-squares slope of last list price on GLA across 5 Riverview / Shadow Canyon closed resales in the last 6 months with no private pool (comps 1-3 plus 261 Rivers Edge and 309 Barton Run): slope $122/sq ft, R^2 = 0.43, n = 5. Prices are last list prices (Texas non-disclosure) and are not time-adjusted. Applied to the full GLA difference.
Location	$0	All three comps are in Riverview (same HOA family / Shadow Canyon sections). Comp 3 is in a newer DR Horton section ~0.94 mi away; no paired-sale evidence of a section premium, so no location adjustment.
Site / lot	$0	Lot sizes differ (0.13-0.22 ac vs subject 0.26 ac). No paired sales support a per-sq-ft lot rate in this set; difference shown, not priced.
Age	$0	Comps built 2020-2026 vs subject 2020. Comp 3 is new construction; no paired-sale age rate isolated from GLA/builder, so $0.
Bedrooms / bathrooms / stories	$0	Not adjusted: no paired-sale evidence. Comp 1 is 1.5-story and comp 2 is 2-story vs subject 1-story; differences displayed only.
Garage	$0	No market evidence for a rate. Subject and comps 1-2 have 2 spaces; comp 3 has 3.
Private pool	$0	Subject has no private pool (not listed; community amenities only). Comps 1-3: community pool only / no private pool verified from listing remarks. Comp 2 notes an empty decorative pond, not a private pool.
Condition / quality	not verified	No inspection or interior walkthrough. Subject previously marketed as upgraded single-story Gehan; comps describe standard finishes or new-construction packages. No adjustment.

INDICATED VALUE (SALES COMPARISON APPROACH)

$482,000

Adjusted range of the 3 comps: **$411,209 – $521,185** · median $492,273 · simple average $474,889

Weighted: Comp 1: $492,273 × 39%

Comp 2: $411,209 × 25%

Comp 3: $521,185 × 36%

= **$482,239**, rounded to the nearest $1,000.

Subject list price: **$624,000** (+29.5% vs. indicated value)

Weighting. Each comp is weighted by the inverse of its gross adjustment % (fewest adjustments = most weight): comp 1 (118 Bear Paw Run, 8.7% gross) carries 39%, and the others share the rest. **Sensitivity.** The GLA rate drives the result: at $122 minus or plus $25 per sq ft the indicated value moves to $480,000 or $484,000. Texas sale prices are not public; if these homes closed at the 97.7% ZIP median sale-to-list ratio, the indicated value would be about $471,000 (sensitivity only, not applied). The subject's last list of $624,000 is above the indicated value. Story, garage, builder/age and condition differences could not be priced from market data and were left unadjusted. A licensed appraiser with closed prices, interiors and condition would refine this.
