Zach, here is a comparative market analysis for your listing at **622 Campus St, Troy, TX 76579** (CTXMLS #629629, active at **$179,400**), built to appraisal-style standards: line-by-line adjustments, net/gross flags and a reconciled value. Texas does not publish sale prices, so each comp shows its **last list price** from the linked Central Texas MLS listing page (via Texas Ally / Movoto / Weichert) and its recorded close date. Subject photos are from the current MLS feed. There are **five** same-subdivision Nolan-plan closings within about 0.2 mi; please read the caveats. **This is an estimate, not an appraisal.**

Sale prices are not public in Texas. Texas is a non-disclosure state, so the closed sale price is not recorded. Unless a card says “Actual sold price,” the “price” is the **last list price** of a home that **closed** (the final asking price, before any seller concession). Actual sale prices may be lower; I did not apply a sale-to-list ratio because Texas does not publish closed prices. Builder new-home last list prices often include incentives; treat them as a ceiling for a resale unless your MLS shows otherwise. **Realtors:** if you know a comp's actual sold price, tap **Update sold price** on that comp (or just reply with the corrected sold prices) and I will revise this CMA.

How the comps were chosen. I do not have direct MLS access. I pulled recently sold College Park / Flintrock townhomes in Troy (Campus St and College Ave) from Movoto, Trulia, Homefinder, Weichert and Texas Ally (Central Texas MLS / NTREIS feeds), then read each candidate's listing page for last list price, size and close status. Order of preference (CMA standards): same subdivision first, closed within 6 months, GLA within ±15%, similar age/style, at least 3 comps. **Result:** five same-subdivision Nolan-plan townhomes (all 1,174 sq ft, 3/2, built 2025–2026) closed between 4/27/2026 and 7/31/2026. Three are on Campus St within ~200 ft of the subject at a last list of $189,990; two are on College Ave at $179,990 and $169,990. **Bracketing:** size matches exactly. Price brackets the subject list ($179,400) from below ($169,990) and above ($189,990). **Texas non-disclosure:** prices are **last list prices** of closed sales, not disclosed closed prices.

Each comp is adjusted toward the subject: (subject − comp) × rate. With matching size/age/plan and no market-supported rates, every adjustment is $0. Price = last list price of a home that closed. The indicated value is rounded to $1,000.

Adjustment rates and their basis

Time (market conditions)	$0	Closings run from late April to late July 2026 (about 3–6.5 months before 11/9/2026). Campus St sales cluster at $189,990; the July College Ave close was

		$179,990. No Bell County monthly price-trend figure was available, so no time adjustment was made.
Gross living area	$0	All five comps are the same 1,174 sq ft Nolan plan as the subject (0% size difference). No GLA adjustment.
Location	$0	All five are in College Park Townhomes (Campus St or College Ave), within about 0.2 mi. No location adjustment.
Lot / garage / baths / beds / age	$0	Matching 3 bd / 2 ba / 1-car / 1-story / 2026 new construction. No adjustment.
Condition / quality	not verified	No interiors inspected. Builder remarks for several sales mention incentives / preferred-lender rate offers; the subject is a **resale** (Weichert: Property Condition Resale) with quartz counters and LVP per the current listing. Condition was not priced.

Reconciliation

INDICATED VALUE (SALES COMPARISON APPROACH)

$184,000

Adjusted range of the 5 comps: **$169,990 – $189,990** · median $189,990 · simple average $183,990

Weighted: Comp 1: $189,990 × 20%

Comp 2: $189,990 × 20%

Comp 3: $189,990 × 20%

Comp 4: $179,990 × 20%

Comp 5: $169,990 × 20%

= **$183,990**, rounded to the nearest $1,000.

Subject list price: **$179,400** (-2.5% vs. indicated value)

Method. All five comps are the same plan with $0 net adjustments, so the indicated value is the simple average of the five last list prices: **$184,000** (median $190,000; range $169,990 to $189,990; middle half $180,000 to $190,000). Dropping any one comp moves the average to between $182,000 and $187,000. The three Campus St sales alone average $190,000. Average $/sq ft of the five is $157, which × 1,174 sq ft is about $184,000. **Result.** Suggested value about **$184,000** (about **$157 per sq ft**), with a suggested range of **$170,000 to $190,000** (full last-list spread $169,990–$189,990). **Vs list price:** the active ask of **$179,400** sits **$4,600 below** the indicated average and about $10,590 below the Campus St cluster average — consistent with a resale asking under recent builder last-list levels. **Reasons for caution:** Texas prices are last lists, not closed prices; several builder sales advertised rate/closing incentives; the subject is a resale; and 614/618 close dates come from aggregator sold feeds (Movoto/Trulia) cross-checked to last-list on listing pages. A licensed appraiser or your MLS with real closed prices should confirm.

Considered and not used

622 Campus St (subject prior sale) · closed ~5/22/2026

The subject itself closed earlier in 2026 (Homefinder / Central Texas MLS) with a builder-cycle last list near $189,990 (Movoto shows sold 4/24/2026 at $189,990). Not used as a comp (same property). Useful context: the current resale ask of $179,400 is about $10,590 (5.6%) below that prior last-list level.

1106 S College Ave · sold 4/23/2026

Same plan/size. Homefinder price history shows last CentralTexas price change to $159,990 on 3/19/2026 before the 4/23 sale. Lower than the Campus St cluster; left out of the primary set to avoid overweighting a possible incentive sale, but it supports the floor of the range.

1010 S College Ave · sold 4/17/2026

Same plan. Homefinder shows last list ~$164,990 (3/12–3/13/2026) before sale. Same reason as 1106 — corroborates the lower end; not in the primary five.

1122 College Ave · sold 4/7/2026

Trulia shows sold 4/7/2026, 3/2, 1,174 sq ft. Last list price not verified on a listing page I could open, so not used.

Larger Troy SFRs (Magnolia, Juniper, University Ave, etc.) · 2026

Single-family homes 1,500–2,400+ sq ft at $240k–$400k+ are a different product type. Not used.

Market context only — see below. Never used as comps.

Market context (not used as comps). Subject listed 11/9/2026 at $179,400 (CTXMLS #629629; Weichert / Homefinder / Trulia). Nearby College Park actives and quick-move-ins have recently shown builder asks roughly $169,990–$189,990 for the same Nolan plan (Trulia quick-move-in strip and Flintrock community pages). Homefinder nearby estimates for other Campus/Cornell units cluster around the high $180ks–low $200ks (AVMs, not sales). TownRatings summarized Troy townhomes as a thin segment (about 11 sales in a year, typical ~$188k). Prior subject cycle last list ~$189,990 before the mid-2026 close supports that the current $179,400 ask is intentionally below that builder-cycle level.
